Result-driven technical lead at Cognizant Technology Solutions managing CIS AWS Cloud initiatives. Spearheaded Terraform infrastructure provisioning, CI/CD workflows via GitHub, and integrated ticketing & service management using ServiceNow. Coordinated cross-functional teams to deliver scalable, secure cloud solutions on time.

Work Experience

Cognizant Technology Solutions (3 years & 8 months)

Technical Lead (October 2024 – Present)

- Managed large-scale AWS operations across 400+ accounts, optimizing core services (EC2, VPC, RDS, CloudFront) and improving application performance by 40% while ensuring 99.95% availability for critical workloads.
- Demonstrated strong security leadership through advanced IAM governance, RBAC implementation, and compliance adherence (SOC 2), maintaining zero security breaches.
- Led automation initiatives using Terraform, Ansible, and GitHub, cutting deployment time from 8 hours to 2 hours and streamlining cloud provisioning, decommissioning, and operational workflows.
- Provided technical mentorship and cross-team collaboration while efficiently handling AWS service tasks, incidents, and operational issues, with additional exposure to Microsoft Azure fundamentals.

Senior System Executive (April 2023 – October 2024)

- Ensured a strong security posture by updating IAM and S3 bucket policies in line with best practices and compliance standards.
- Led critical server patching across environments and managed incidents & changes via ServiceNow, delivering weekly/monthly reports on operational trends.
- Migrated 5+ legacy applications to AWS, cutting infrastructure costs by 35%, and optimized system performance to achieve a 45% improvement.

Engineer Trainee (April 2022 – April 2023)

- Proficient in both Windows and Linux environments, with hands-on experience in command-line usage, file system management, user administration, and basic troubleshooting.
- Foundational skills in SQL, including querying databases effectively.
- Experienced in ServiceNow-based incident logging, tracking, escalation, and communication, streamlining the full incident management & change management cycle.

Education

B.E Electronics & Telecommunication (June 2021)

Rajiv Gandhi Institute of Technology (8.7 CGPA)

Technical Skills

AWS Cloud, Github, Azure Cloud, Python, Terraform

Operational Skills

ServiceNow, Microsoft Office, Soft Skills, Written Skills

Certification

AWS Cloud Practitioner (October 2026)

AWS Solutions Architect-Associate (February 2029)

GitHub Foundations
